Community Rating: **4.44 / 5**

One of the easiest and earliest known ciphers but with XXI century twist! Nobody uses Alphabet nowadays right? Why should you when you have your keyboard?

BUH'tdy,|Bim5y~Bdt76yQ

From the challenge name it says “Modern Caesar” and the cipher text provided is **BUH'tdy,|Bim5y~Bdt76yQ**

And in the challenge description its given “when you have your keyboard”

From their I got that the 2 character left of given alphabet is the correct pattern.
