Flags:

Description-What do the flags mean?

We are provided with this image

We can see that there are lots of flags and we have to find out all the characters of the flag.
We know the flag format is PICOCTF{}

So we can fill out some of the blanks……such as

PICOCTF{F**********FF}

I searched for the country flags but found nothing.

Then I search about "red diamond flag" and found some Signal flags.

And here it goes, after filling all the characters, I got the flag.

Flag: PICOCTF{ F1AG5AND5TUFF}
